L&A 400I Series

Cut-to-Measure Traversing Drapery Systems

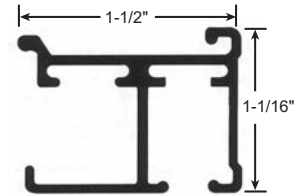

FEATURES

- **NEW** color options - Track available in Silver, White, Gold, Dark Bronze, Black and Linen White.
- Improved stack back - Our SLIM-line roller carrier allows for smaller stacking on pleated drapery.
- New roller Ripplefold carriers for improved performance.

DESCRIPTION

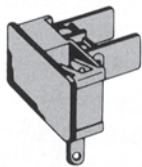

Extruded powder-coated aluminum. *Finishes are Silver, White, Gold and Dark Bronze, Black and Linen White.* Two end pulleys to choose from for either lightweight or heavyweight draperies. Multi-wheel roller-bearing masters prevent any binding for easy traversing.

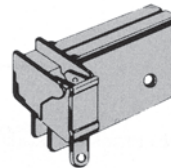

SYSTEM OPTIONS

The **L&A 400I-LD** system is for lighter weight drapery or narrower widths. This system uses a smaller end pulley and sliding drapery carriers and master carriers. It comes with a plastic cord tension pulley and standard wall or ceiling brackets*.

The **L&A 400I-HD** system is for heavier weight drapery or wide widths. This system uses a heavy duty ball bearing end pulley with special SLIM-line roller drapery carriers and roller master carriers. It includes a metal cord tension pulley and heavy-duty wall or ceiling brackets*.

Max. Weight = up to 25 lbs
Max. Length = 20 ft.

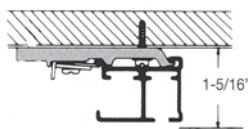

Max. Weight = up to 80 lbs.
Max. Length = 20 ft. (one piece)
Max. Length = 40 ft. (spliced, two-way draw only)
