

SVELTE

MOTORIZED DRAPERY TRACKS FROM J.L. ANTHONY

In 2016 we developed our Svelte line to address a popular misconception that automated drapery track was basically utilitarian. What if, we could introduce high-style motorized made-to-measure rods in a

slimmer, more contemporary line of drapery hardware? The squared design (available in three rod end styles) greatly simplified the motorization process with built-in motor tracks and filled a huge need amongst designers, resulting in lower costs and faster fabrication times.

In 2023, we took SVELTE one step further, introducing SVELTE Smooth, a rounded profile design available in 8 standard finishes. Take your window treatments to a new level – square or curved, SVELTE is a remarkable choice, putting the “fab” in prefab for rooms of distinction.

Svelte Square:

- **10 Standard Finishes: Gold, Pewter, Stainless Steel, Dark Bronze, Dark Copper, Matte Black, Honey Maple, Blackened Oak, Mahogany and new color – Brushed Brass**

Svelte Smooth (NEW)

- **8 Standard Finishes: Gold, Pewter, Stainless Steel, Dark Bronze, Dark Copper, Matte Black, Honey Maple, and new color – Brushed Brass (the Oak woods are not available in the smooth profile)**

Common Features:

- **Three rod end styles: Mitered Elbow returns, End Cap Finial, Dado End**
- **Custom Finishes Available (quoted on request)**
- **Available in up-to 30' spliced or 15' unspliced drapery rod widths**
- **Available as Cord Draw, Baton Draw or motorized with Somfy Glydea**
- **COM program accommodates dealer-specific tracks/motors such as Lutron or BTX**
- **Pinch Pleat or Ripplefold**

NOTE: Curves and bends are not available with either Svelte profile
